

Experiment No. 9

Title:

Implement localStorage and sessionStorage to Save User Preferences like Theme Settings.

Software/Tools Required:

- Visual Studio Code
- Google Chrome (Web Browser)

Theory:

Web applications often need to remember information entered or selected by the user. JavaScript provides the Web Storage API, which allows data to be stored in the browser using localStorage and sessionStorage.

a) localStorage:

localStorage stores data that remains available even after the webpage or browser is closed and reopened.

It is useful for saving user preferences such as theme settings, language selection, and display preferences.

Data is stored in the form of key-value pairs.

b) sessionStorage:

sessionStorage stores data only for the current browser session. The stored information remains available while the particular browser tab or window is open. The data is removed when the session ends.

c) Storage Methods:

- `setItem()` is used to store data in browser storage.
- `getItem()` is used to retrieve stored data.
- `removeItem()` is used to remove a particular stored value.
- `clear()` is used to remove all stored data.

d) Theme Preferences:

`localStorage` can be used to save a user's selected theme such as Light Mode or Dark Mode. When the webpage is opened again, JavaScript can retrieve the saved preference and automatically apply the selected theme.

Result/Conclusion:

The practical was completed successfully. `localStorage` and `sessionStorage` were implemented to store and retrieve user preferences. The selected theme setting was successfully maintained using browser storage, demonstrating the use of client-side storage in JavaScript.

Seminar Schedule Planner

Light

Time	Session / Topic	Speaker	Room	Status	Action
08:00 - 09:30	Registration & Welcome	Organizing Team	Main Hall	Completed	<button>Delete</button>
09:30 - 10:00	Inaugural Address	Dr. A. Sharma	Main Hall	Completed	<button>Delete</button>
10:00 - 11:00	AI in Healthcare	Prof. R. Mehta	Main Hall	In progress	<button>Delete</button>
11:30 - 12:00	Tea Break	—	Lobby	Pending	<button>Delete</button>
12:00 - 12:30	Cloud Architecture Patterns	Mr. P. Iyer	Main Hall	Pending	<button>Delete</button>
16:00 - 16:30	Q&A & Video of Thanks	Panel	Main Hall	Pending	<button>Delete</button>
